

## **The Role of Volunteer Commitments in the Financial Assistance Application Process**

Dear Financial Assistance Applicant:

If you are not already aware, when you apply for Financial Assistance for tuition for St. Mary's Catholic School, you are asking the school to make a financial investment in your child's education. Because the school recognizes the importance of education and the future of our children, we hope you value this investment as much as the school does.

The school staff realizes how much a family can be an asset. The time and talents of the student's parents are greatly valued and therefore sought as a way to be good stewards of the school's fiscal budget. Therefore every family who applies for financial assistance should be prepared to make as big of a commitment to the school as the school is being asked to make for their children.

Financial Assistance recipients should be prepared to serve 25 family service hours during the school year and make a commitment to a weekly volunteer assignment. Assignments may include a job from the list below or something discussed with and approved by the Principal.
